18. Bungee jumping is an activity that involves jumping from a tall structure while connected to a long elastic cord. The tall structure is usually a fixed object, such as a building, bridge or crane; but it is also possible to jump from a movable object, such as a hot-air-balloon or helicopter, that has the ability to hover above the ground. The thrill comes from the free- falling and the rebound. When the person jumps, the cord stretches and the jumper flies upwards again as the cord recoils, and continues to oscillate up and down until all the kinetic energy is dissipated.
    Jumping Heights, located in Mohan Chatti village, in Rishikesh has been rated as one of the most preferred bungee jumping destinations in India at a height of 83 meters. It is the only place in India where bungee jumping can be done from a fixed platform. This is also India's only fixed platform Bungee performed from a professional cantilever, to separate it from entertainment parks, and create instead, an extreme adventure zone. The Bungee has been designed by David Allardice of New Zealand. The Cantilever platform is built over a rocky cliff over-looking the river Hall, a tributary of River Ganges. Bungee-ing amidst the vastness of nature lends the experience an absolutely breathtaking quality. Jumping heights is well known for its safety measures and experienced staff. It costs around Rs 2500 per jump, a bit expensive, but totally worth the experience. The Bungee jumping experience has been set amidst the astoundingly stunning landscape of Rishikesh. To Bungee jump, one must be at least 12 years and should weigh between 40-110 kg.

56. A Trip to Remember Forever
Our trip to this wonderful city, Darjeeling started with a breath taking view. We parted the curtains of our hotel room and there it was, Kanchenjunga, the third highest mountain in the world! The entire range was in front of us in full view, snow-capped and dazzling in the sun. Our trip started early in the morning the next day. We woke up at 4 a.m. and reached Tiger hill at 5 a.m. to view the sunrise as the place has earned international fame for the best sunrise view. Tiger hill is situated at an altitude of 2590 meters and is 13 kilometers away from the city. Although Kanchenjunga was visible from the window of our hotel room, viewing it from tiger hill was a different experience altogether. It was not a very cloudy day so we were lucky enough to get a glimpse of the Mount Everest. After Tiger hill, we visited Senchal Lake which is another picnic spot nearby. We were told that the lake supplies drinking water to the city.
The next spot on our list was Batasia Loop, a spiral railway near Ghum. The loop is situated 5 kilometers from the city and is a gigantic railway loop where the toy train runs and takes a 360 degree turn. It is a beautiful place with manicured garden, streams and waterfalls. While travelling on the toy train, one gets a breath-taking view of Darjeeling's scenic beauty. We would suggest the toy train only for people with lot of patience as the train travels at a speed of 15 kilometers per hour and covers 14 kilometers in three hours which might be an utter disappointment for some. Altogether we had a memorable and enjoyable school trip with our friends and it will linger in our thoughts forever.
The students visited _____ city.
