23	23	23	Q. Kamal, Khan and Devid are partners in a firm engaged in the distribution of dairy products in Madhya Pradesh. Kamal is a holder of Senior Secondary School Certificate from Central Board of Secondary Education with Business Studies as one of his elective subjects. Khan had done his post-graduation in Hindi literature and Devid in Dairy Farming. One day there was a serious discussion between Khan and Devid regarding the nature of 'Management as a Science'. Khan argued that Management was not a science whereas Devid was of the opinion that Management was a science. Kamal intervened and corrected both Khan and Devid about the nature of Management as a Science with the help of his knowledge of Business Studies. Explain, how Kamal would have been able to satisfy both Khan and Devid. Ans. Kamal would have been able to satisfy both Khan and Devid by explaining the following features of management as a science: 1. <u>Systematised body of knowledge.</u> Like science, management is a systematic body of knowledge with its own theories and principles that have developed over a period of time. So, this feature of science is present in management. 2. <u>Principles based on observation and experimentation</u> Like science, management principles are derived through observation and repeated experimentation. So, this feature of science is present in management. However since management deals with human beings the outcome of these experiments are not capable of being accurately predicted. 3. <u>Universal validity.</u> Principles of management like principles of pure science provide managers with certain standardised techniques that can be used in different situations. Since they have to be modified according to a given situation, their application and use is not universal. So, this feature of science is not fully present in management. Through the above discussion Kamal would have been able to	½ mark for the heading + 1 ½ marks for its explanation = 2 x 3 = 6 marks

			satisfy both Khan and Devid by making them understand that management is a science but not an exact science.	
-	24	-	Q. Describe the following rights of a consumer: (a) Right to be informed. (b) Right to seek redressal (c) Right to choose Ans. (a) <u>Right to be informed:</u> ▪ The consumer has a right to have complete information about the product he intends to buy such as, ingredients, date of manufacture, price, quantity etc. ▪ It is because of this reason that the legal framework in India requires the manufacturers to provide such information on the package and label of the product. (b) <u>Right to seek redressal:</u> ▪ The consumer has a right to get relief in case the product or service falls short of his expectations. ▪ The Consumer Protection Act provides relief to customers such as <u>replacement of product</u>, <u>removal of defect in the product</u>, <u>compensation</u> for any loss or injury suffered by the consumer. (c) <u>Right to choose</u> ▪ The consumer has the freedom to choose from a variety of products at competitive prices. ▪ Marketers should offer a wide variety of products in terms of quality, price, size etc. to enable the consumer to make the choice.	2 marks + 2 marks + 2 marks = 2+2+2 = 6 marks
