

Model Question paper
General Introduction to Metallurgy 2

11th Standard

Chemistry

Reg.No. :

--	--	--	--	--	--

I. Answer all the questions.

II. Use blue pen only.

Time : 00:45:00 Hrs

Total Marks : 35

Part - A

3 x 2 = 6

- 1) What is gravity separation?
- 2) Name the ones which are concentrated by froth flotation process.
- 3) Define Metallurgy

Part - B

3 x 3 = 9

- 4) What is meant by electrolytic refining? Give example.
- 5) What is anode mud?
- 6) What do you understand by the following terms i) roasting ii) smelting

Part - C

4 x 5 = 20

- 7) What is roasting? Explain different types of roasting with suitable example.
- 8) What is smelting? Explain the process with an example.
- 9) What is Zone refining? Describe the principle involved in the purification of the metal by this method
- 10) How is nickel extracted by Mond's process? Write the various reactions involved in the process.
